

## COVID-19 NCCU Survey Information Sheet

Version Date: 9/20/2022

Investigators at Tufts Medical Center are conducting a research study to understand the impact of COVID-19 on Neurocritical Care Units worldwide. You will be asked to complete a voluntary survey which will take approximately 5 minutes. There is a potential risk of loss of confidentiality, however, any identifiable information that you provide will be protected and not shared in any research publications. As such, there is a minimum expected risk to these survey questions. Your participation is voluntary and you may stop the survey without penalty. There is no compensation or benefit to you for participating, but responses may improve the understanding of the impact of COVID-19 on Neurocritical Care Units and the care of Neurocritical care patients. The Tufts Health Sciences IRB has reviewed this study. If you have any questions, you can contact the study Principal Investigator, Deborah Green-LaRoche, MD, at 617-636-7606 or [DGreenLaRoche@tuftsmedicalcenter.org](mailto:DGreenLaRoche@tuftsmedicalcenter.org).
